ACI GROUPE

PRESENTATION

ACI Group's history starts in 2019, when Philippe RIVIERE and Patrice RIVES decide together to take advantage of each other's strong experiences in large groups internationally renowned.

Their commercial, industrial and technical skills complement one another and are made available to ACI Group's clients.

ACI Groupe is a French ETI (intermediate-size company) of industrial subcontracting which brings together complementary technological expertise. Formed around 4 Market BUs, 1 Product BU and 1 Service BU, the group positions itself as a Tier 1 supplier for aeronautics, automotive, rail, defense, energy and medical.

INDUSTRIAL TECHNOLOGIES

Among the special processes, we offer treatment, drilling and grinding services to our customers.

INDUSTRIAL SITES

Industrial subcontracting center dedicated to the automotive, rail and modern transportation.

Leader in the manufacture of certified parts, in prototype, small and medium series for the field of defense (land & naval).

Comefor

Center of expertise specialising in the manufacture and distribution of packaged mechanical solutions.

Industrial player specialized in aerostructure and aircraft maintenance with high technological added-value, on international civil and military markets.

Expert in medical industrial subcontracting.

Service and maintenance offer "Quick Delay" in order to support the performance of our customers and meet their requirements in respect of "time limits" and "operating costs".

Our values

- Performance
- Agility
- French quality

ACI Groupe guarantees you "Made In France" parts or 100% controlled and certified in France

BUSINESS UNITS

We are committed to continuous innovation, the quality of your products and observing your deadlines. Within the group, we have simple, fast and sustainable industrial processes available to ensure your manufacturing needs.
